10-Day Total:			0.0		0.37		
10-Day Percent of Normal:			0%				

### Comments:

Windy and warmer conditions are forecast for the next couple of days. Over the weekend and into next week, a gradual increase in snow levels is expected, which will bring temperatures back up to near normal. The next update of this forecast will be about Wednesday, September 27, 2006.
